

Panel 3 Energy Management

Erik and Liam

Why are we here?

- “It is possible to be too late !!!”
- Sustainability and climate change
- A lot of great points across diverse but interlinked topics
- Definition of EE
- The twins little sister

Energy management

- People - Technology - Data plus a little magic
- Savings from operational control
 - Is 25% possible?
- Behaviour change
- Non-Energy Benefits (NEBs)
- Skills of energy practitioners - internal and external

Benefits and threats

- Olympics and doping
- EnMS and certification
- SEC v Reality

Japanese wisdom

電源を切る

Pre-conference - performance measurement

- Over 80 people
- Good discussion
- Critical that we can measure savings and react to excessive consumption.
- Barriers
- Next Steps
